\$500,000 Apartment Complex to be Built

Plans for construction of a \$500,000 apartment complex providing 48 living units were announced today by Frank Kayich, Granite City realtor.

The new complex, consisting of four separate buildings housing 12 apartments each, will be built on the north side of Johnson road, about 650 east of Nameoki road.

Kayich said construction is expected to start within a month to six weeks, depending upon the time required to award a contract. The realtor said he is now receiving bids for the project. The four apartment buildings, swimming pool and parking facilities will cover a two-acre tract.

Kayich said he will construct, own and manage the apartment complex. Financial arrangements were made, he said, by E. L. Frost, 22 Bermuda Lane, of the Mercantile Mortgage Co., a mortgage banking firm and servicing agent for Metropolitan Life Insurance Co.

Three-story Units

The four apartment buildings, two each of which will face one another in a rectangular layout, with a swimming pool and sun deck in the center of the rectangle, will be brick construction, three stories high with four apartments on each floor. Two of the buildings will contain 12 two-bedroom apartments. The other

two will contain six three-bedroom and six two-bedroom apartments each.

The buildings will be of French Provincial design with the exterior of the upper story done in rough-hewn shale shingles.

The center area between the buildings will include sidewalks and drives, and adequate parking facilities will be provided at the rear of each building.

Kayich, a realtor who lives at 2604 Delmar avenue, said the apartment complex will be located between two shopping centers—Bellevue Village and Nameoki Village—and in the immediate neighborhood of elementary, junior high and senior high schools.

The interior of all apartments will be the same. Each will have one and a half baths, and will feature completely furnished kitchens that will include dishwashers, garbage disposal units, ranges and refrigeration. Each

among features of the 48 living units in a new four-building, \$500,000 apartment complex to be built along Johnson road.

building unit will have central heating and air conditioning. Another feature, Kayich said, will be wall-to-wall carpeting throughout the building, including hallways and staircases.

Kayich said that apartments of this type "are much in demand. Granite City is suffering a critical shortage of housing. It is surprising the demand there is for suitable apartments in Granite City."

"I don't think a lot of people realize that Granite City is in the center of an area of three Southwestern campuses—Edwardsville, Alton and East St. Louis. There is a great demand for apartments here by students and school officials of SIU-SW alone because they can travel in either direction to one of these campuses."

Construction of the apartment complex is expected to take about six months, once work actually is started, Kayich said.

\$1,900,000 Permit for GC Steel's BOF Plant

Air Products Obtains \$175,000 Permit for Oxygen Separation

Granite City Steel Co. obtained a city building permit last week to construct its new basic oxygen furnace plant. The cost was listed at \$1,900,000.

In accompanying action, Air Products and Chemicals Inc. received a permit to erect a new oxygen separation plant and hydrogen generators at the north-east corner of 22nd and Monroe streets at a cost of \$175,000.

The BOF plant, to contain 20-ton capacity furnaces, will replace the open hearth furnaces at Granite City Steel. Completion is scheduled late in 1966. The plant is being erected by the Koppers Co. of Pittsburgh, Pa., which designed the plans and specifications.

The new plant also will contain powerful overhead cranes, transfer cars, conveyor belts and other facilities required to charge massive tonnages of raw materials into the furnaces and to handle production of molten steel.

Pear-Shaped Furnaces

The furnaces will be large, pear-shaped vessels, 35 feet, 4 inches high and with an inside diameter of 24 feet and opening at the top of 12 feet.

The project is part of Granite City Steel's overall \$140 million expansion and improvement program. The city collected a building permit fee of \$380.

Earlier this year the industry plant announced by the city would principally supply the oxygen requirements of the Granite City Steel's basic oxygen plant. The new oxygen plant will produce 99.99% pure nitrogen gas which will be custom-blended with hydrogen from on-site hydrogen generators.

Inert gas product streams of the new oxygen plant will be used in the basic oxygen plant.

The city's new oxygen plant will be custom-blended with hydrogen from on-site hydrogen generators.

The southern section of the Nameoki road improvement, from Madison avenue south to Edwardsville road, will be scheduled for construction until 1967, Kettnerhoff said, pointing out that most of next year will be required to obtain the right-of-way.

Inclusion of the West Ponton section with the northern phase of the road improvement will depend upon whether Granite City can acquire the right-of-way.

Allege Car In Shooting Linked to Strike Here

New Talks Held Today; Shotgun Blasts Miss Negotiator and Son, 17

As negotiations in the 14-week-old Union Starch & Refining Co. strike proceeded this morning, following five bullets shot into and near the homes of company negotiators and supervisors, the first allegedly tangible link between the dispute and the shootings was being investigated.

An auto whose occupants reportedly fired at the trailer home of William Valley, 2715 West 22nd street, a quality control engineer, shortly before midnight last night was followed to the area of the striking union's headquarters.

Granite City police questioned the license of the car but released him due to lack of proof that he had been in the area. They said he listed a place of employment other than the starch plant.

Thomas Austin, president of Local 7483, Oil, Chemical & Atomic Workers, told the Press-Record today, "I don't know anything about any shootings," adding that he believes they have "no relation" to the strike.

Glen F. Keithley, a company vice-president and a negotiator, said his son, Jay, 17, escaped injury at 1:10 a.m. Sunday when three shotgun blasts hit front windows of their home in Belleville and sprayed broken glass through the living room.

Second Shotgun Incident

A blast from a 410-gauge shotgun, fired from a car, shattered a window at the home of a supervisor, Marvin Stedfeld, in Bellwood, Mo., at 3:05 a.m. Sunday.

The back window of an auto owned by Bruce D. Williams, 2601 E. 20th street, was shattered, was punctured last night by a 22-caliber bullet found inside the car. The Dale home was attacked.

Gun Shop, Rooms Damaged by Fire; Woman is Aided

A fire which broke out about 10:30 p.m. Thursday in a room at 1873 1/2 State street resulted in over \$1500 smoke and water damage to the contents of the second floor apartments and Lee's Gun Shop which occupies the main floor. No injuries were reported.

A woman living in one of the 10 rooms upstairs was helped down by two passersby, one reportedly a soldier from the Granite City Army Depot. She is Mrs. Buelia Gardner, who was reported to be recovering from an operation on her feet.

The origin of the fire and damages to the living quarters were not determined. Harry Faintich, manager of the gun shop, said nearly 200 guns will need cleaning by a gunsmith as a preventive measure because of the dense smoke. He did not estimate the cost.

The fire started in a room rented to a John Brown, who has been gone for three weeks and has not returned, according to Earl Wright, manager of the building. He added that three or four of the seven residents were at home at the time.

Defendants in 5 Area Cases Freed By Grand Jurors

Defendants in five area incidents were exonerated last week when the grand jury returned 15 no true bills along with 39 indictments which were suppressed pending arraignments Wednesday.

Exonerated were Jimmy Taylor, alias Lawrence Richardson, 28, of St. Louis, charged with theft of \$2650 from the Tri-City Grocery in Venice last March 12; Jimmy Castille and Robert Tidwell, both of Granite City, who had been charged with rape of an out-of-state teenage girl earlier this year.

Three Charges Filed

Arrested at Douglas and Mercedia streets, Venice, at 11:50 p.m. Saturday, Rufus Owens, 58, of 1255 Basell street, was charged with disorderly conduct, flourishing a knife and resisting arrest. He was released Sunday on \$100 cash bond pending a hearing Oct. 21.

Stop Sign Violation

Gladys Gregory, 4788 Nameoki road, was arrested on a stop sign violation charge Thursday afternoon at Pontoon and Nameoki roads. He was summoned to appear for a hearing on or before Oct. 21.

Shrink service station, Pontoon road and Sara street, last April 2 pleaded guilty and applied for probation. A hearing was set for Nov. 5 by Associate Judge Austen Lewis.

A \$3000 bond forfeiture was ordered for Edward James Miller, 35, of Granite City, charged with taking indecent liberties with a minor on July 15, 1963, as he failed to appear for trial.

Burglary charges against Le-manslaughter in the death of Walter Alford of the Eagle Park Acres area, in connection with a break-in at Lincoln school, were nolle prossed.

In making its report, the grand jury recommended that the Madison county board of supervisors authorize the addition of three more sheriff's deputies and necessary patrol cars to provide more adequate protection of residents of unincorporated areas, and that the county's 100-year-old jail be replaced with a new one. It also recommended that the county build a juvenile detention home.

Grand juries during the past several years have condemned the old jail, and Sheriff Barney Fraundorf repeatedly has asked for an increase to his staff. The county board has maintained that funds are unavailable, and study commissions have considered a new jail building.

Local Boy Scout Program is Molding Men of Tomorrow

Because it assists boys in becoming men, and because it offers one of the most diversified programs of character building and recreation attainable in any other organization, the Boy Scouts of America is among the most important of the United Fund agencies serving the Quad-City area.

The Boy Scouts organization proves its worth to the community because it does not wait until a boy has become a community problem before it acts; it starts with the boy at an early age and works to build him into the citizen of tomorrow. The Boy Scouts

works on the premise that manhood is something that is not given passively to the youth upon graduation from adolescence but is something that must be earned individually by the boy himself.

Scout leaders—and there are many of them among the men of the community who devote their time and interests to the development of young manhood—realize that the Boy Scouts of America are, in connection with a break-in at Lincoln school, were nolle prossed.

Success of Scouting locally is attributed in a great degree to the interest shown by adults of the area in advancement of the Boy Scout program. The Uniwah (Quad-City) district has a ratio of about one leader to every three Scouts.

Boys Advance Smoothly

The Boy Scout program is designed so that boys advance from the Cub to Explorer status with smooth transition as the

CUB SCOUTING is the first phase of the Boy Scout Program and has the aid of Den Mothers who aid and guide the youngsters. A major part of the Boy Scout movement is financed with United Fund donations.

boy grows from age of 8 to 18.

They perform many community services. In one program they may go from door-to-door urging people to vote, or they may place leaflets on automobiles to promote a public project, or they may distribute posters or information for civic organizations.

Each spring the boys go from house-to-house collecting discarded clothing for Goodwill Industries, which employs the handicapped. They receive training in safety to be prepared in the event of an emergency.

Every class range of boys is given equal training, although for the younger boys—the Cubs, from 8 to 11—there is less stress on the subject of camping. The Cubs conduct their own meetings with the help of a full Scout who

acts as Den Chief. The young boys study nature lore, go on hikes and prepare for the time when they will trade their blue uniforms for the khaki brown of the full Scout.

During the winter months, the boys hold weekly meetings, make plans for the approaching spring and summer, engage in handicraft projects, practice various skills and discuss individual and troop interests. The Scout program, for boys 11 to 14, is the heart of the program. Here the activities are at their peak and guidance is thorough.

Peak of Program

The Scout program reaches its peak in the Explorer group, for boys through 18, in which they have counseling in the latest innovations such as science and electronics, and direct their own projects.

During 1965, the Uniwah council of the Quad-City area, reported a total of 1605 boys enrolled in the program, with 705 leaders. The Uniwah area is part of the Cahokia Mound Council, under which the program is administered in this area.

For the 1966 year the council has submitted a budget of \$81,388, of which \$48,000 was requested from the local United Fund.

The United Fund has allotted \$44,000 for the council for the 1966 year, however, which would put the new budget at \$77,388. The budget for the 1965 year was \$73,951, while actual expenditures during 1964 amounted \$64,771.

President of the council is A. P. Steinhilber and Eugene Coe is council executive. The council office is located at 1338a Niedringhaus avenue.

FORMER RESIDENT HERE Miss Lida Heyer of Nashville, Tenn., a former Granite Cityan, arrived in the city today to spend a fortnight's vacation with her sister, Mrs. Arthur Crabtree, 2509 Benton street.

Miss Ruth Ann Justice and Peter Novacich Jr. are Wed

The wedding of Miss Ruth Ann Justice and Peter P. Novacich Jr. took place Saturday morning at St. Joseph's Catholic Church. The bride is a daughter of Mr. and Mrs. Mike J. Mejski, 2926 Harding avenue. Mr. Novacich's parents are Mr. and Mrs. Peter Novacich sr., reside at 1501 Joy avenue.

Altar bouquets of white gladiolus and pom poms decorated the church and white satin bows marked the family pews. The ceremony was performed at 10 o'clock by Rev. David Munn.

The bride wore a gown of imported French hand-clipped Chantilly lace fashioned with a fitted bodice, a Sabrina neckline and long tapered sleeves. The A-line skirt of peau de soie, floor-length, featured an overskirt of lace bordered with peau de soie. A chapel train fell from the raised waist line accented with a bow. A matching lace pillow secured the bride's bouffant veil of imported silk illusion and she carried a cascade of snowdrift pom poms, stephanotis, white laceron and green velvet leaves centered with a corsage.

Mrs. James Ashley was matron of honor, serving with two bridesmaids, Mrs. Norville Baker and Mrs. Ray Romine, the latter a sister of the bridegroom. They wore gowns styled with moss green velvet bodies with scoop necklines, short sleeves and floor-length skirts of ivory crepe. Bows with long streamers accented the arched waistlines and they wore moss green velvet rings and maline veils in their hair.

Their flowers were cascades of tangerine and yellow mums with green velvet leaves and tangerine-tinted wheat with brown acorns scattered throughout.

Mignon Moerlein, a niece of

the bride, was flower girl. She wore a dress patterned after those of the older girls with a green bow in her hair and carried a basket of tangerine petals. Michael Novacich, a brother of the bridegroom, served as ring bearer.

Mr. Novacich was attended by Charles Ahning as best man, and James Ashley, Maynard Stark, Michael Ahning and Norville Baker, as groomsmen and ushers.

For her daughter's wedding Mrs. Mejski chose a green two-piece lace dress with green accessories and a corsage of Zorua roses. The bridegroom's mother was in a powder blue brocade dress with accessories of the same shade of blue. Her flowers were white roses.

The wedding breakfast was held at the Rose Bowl and the reception took place in the evening at the VFW hall. After a tour of the southern states the newlyweds will be at home at 1720 Spring avenue.

Both young people are graduates of the Granite City high school. The bride is employed in the offices of the Teamsters Local. Mr. Novacich is an employee of the A. O. Smith Corp.

Auxiliary policemen are trained in most of the regular police duties, including first aid, traffic and crowd control, firearms, arrest procedures and search and seizure. Also given are special courses in radiation protection and basic civil defense.

Rally to Win First Conference Clash

Trojan Win At Duplo Lacks Oomph Warriors Upend Alton 27-7, Bounce Back In 2nd Half; Offense, Defense Shines Again

The Warriors of Granite City completely upended Alton's Redbirds 27-7 in Southwestern Conference action at Alton Friday night.

The game, Granite City's second conference win of the year, saw the Redbirds gain much yardage in the first half against the highly-jouted defense of the Warriors, but Alton was stopped cold in the second half.

The Warriors scored quickly as they took an Alton punt on their own 40 and Rick Turner ran it back to the Redbirds' 10 yard line. Rich Kozol, starting his first game at the fullback spot, scored from the one-yard line a few plays later. Jim Rains added the extra point.

Granite City then kicked to Alton and the Warriors bogged down. Alton hit the middle of Granite City's line for yardage throughout the first half and kept the Warrior defense honest with some screen passes.

In the second quarter, Alton quarterback Bob Gruber connected on such a pass to fullback Tom Chelero and the speedy receiver ran the ball to Granite City's four yard line before being tackled. From there it was no problem for fullback Rich Henderson to power his way through the crumbling Warrior line for the touchdown. Alton made the point after and the score was tied 7-7 at halftime.

Whether Coach Jim Morrison of Granite City gave his boys quite a talk at halftime was not disclosed, but the Warriors came onto the field with "sixes" in their eyes.

Neither team scored in the third quarter, but there was a significant change as the Granite City defense stopped Alton's gain in the fourth quarter.

The fourth quarter belonged to the Warriors just as if they owned it. End Terry Moore recovered an Alton fumble on the Redbirds' six yard line and set up Gary Johnson's two yard run for six points. Johnson struck again later in the period, as the big back dove three yards and made the score 20-7. Jim Rains kicked the extra point on both of Johnson's touchdowns.

The Warriors' final tally came when Dana Lakatos intercepted a pass from Alton's quarterback, who was injured by Dana Lakatos who scored the last touchdown and was tackled in the end zone and suffered a minor concussion. Rich Kozol and Ed Brokaw received recoveries of leg in-

juries, and Moore was hurt slightly.

The Warriors, 3-1 on the season and 2-0 in conference play, prepare for the high scoring Wood River Oilers this week. Al-

loss of seven yards. He then combined with other Granite City defensive stalwarts and held the Redbird offense. This forced Alton to punt and set up the Warriors' first score.

Terry Moore, the Warriors' 6' 5", 200 pound end, played "a fantastic game," in the words of Morrison. He was blocked, checked, and double-teamed, but he still caught the ball," Morrison said. "He's another Pat Richter, and he's only a junior. He'll be great."

Although the Granite City eleven didn't run away from their opponents in the statistics, they still outgained the Redbirds.

Gary Johnson, who gained 54 yards against Collinsville, managed to pick up 57 yards for an average of 3.5 yards per carry. Leading the Warriors in ground gaining is Tri-Captain Rick Turner. The speedy fullback picked up 40 yards and now has a total of 120 yards in two Southwestern conference games. He is averaging exactly 10 yards per carry.

Quarterback Hackney has passed 19 times, completing six for 50 yards, in conference action to bolster the Warriors' offensive threat.

The strong Granite City defense is not to be overlooked. The defensive team scored the last touchdown of the game, set up another and accounted for recovering two Alton fumbles, in intercepting two passes and stopping the Redbirds cold in the second half.

"Alton was big, tough, and fast, and they hit hard out there," Morrison said. In reference to the first half, he said, "I told them again that the honeymoon was over, but they got overconfident after that. They scored; they did all right in the second half."

The Warriors sustained no major injuries, but Dana Lakatos who scored the last touchdown was tackled in the end zone and suffered a minor concussion. Rich Kozol and Ed Brokaw received recoveries of leg in-

juries, and Moore was hurt slightly.

Tigers Top Prather, 19-8

Prather junior high dropped its first football game in many outings by a score of 19-8 to Edwardsville junior high on Prather's home field Thursday.

A blocked punt on Prather's own 30 yard line in the second quarter set up Edwardsville's second score of the day; the junior Tigers scored initially in the first canto.

Prather did not get on the scoreboard until the start of the second half when it kicked to Edwardsville. The Edwardsville safety man fumbled the ball in the end zone and was tackled by a swarm of Prather footballers for a two-point safety.

Using a variety of off-tackle plays, Edwardsville struck paydirt again in the third quarter, but Prather scored a touchdown late in the final period of play.

Quarterback Roger Belshe copped a 70-yard drive with a four-yard plunge for the six points for Prather. Key plays in the drive included a 17-yard sprint by fullback Joe Bodi and a 14-yard pass play from Belshe to wingback Larry Hicks.

Prather next faces Webster junior high of Collinsville at Webster on Thursday.

Canal Freight for Year Up by 24 Million Tons

Commercial freight passing through the Chain of Rocks Canal during September fell off 889,012 tons from the all-time record tonnage of August, but the total for the year reached 26,375,595 tons, or 2,241,582 tons more than had passed through the canal at the same time last year.

Freight shipments through the canal during June, July and August set all-time record figures of 3,497,850 tons, 3,573,395 tons, and 3,875,255 tons, respectively. The total September tonnage, however, amounted to 2,978,245. In May, the tonnage was 3,336,641.

Thus, commercial freight tonnage passing up and down river through the canal during four of the nine months of this year has exceeded the 3-million-ton mark, the first year in which such records have been set. Lightest shipments for any single month this year was in February when freight tonnage totaled 1,850,645 tons.

Traffic upriver during September amounted to 1,715,543 tons, while downriver traffic totaled 1,262,702 tons, as follows:

Petroleum products, 424,770 tons upriver and 221,350 tons downriver; grain, 6900 tons up and 843,050 tons down; coal, 742,350 up and none down; cement, sand and gravel, 4200 up and 12,500 down; sulphur, 47,500 up and 8900 down; miscellaneous commodities, 310,225 up and 53,550 down; iron and steel products, 32,400 up and 84,550 down, and chemicals, 147,200 up and 37,400 down.

Record of the U. S. Army Engineer Corps show that commercial craft passing through the canal during the month included 738 towboats, ten passenger barges, 3307 barges and 209 private recreational boats.

Government craft using the canal included eight towboats, 12 barges and 12 patrol boats. These figures brought to 6553 the total number of towboats using the canal during the nine months of the year. Forty-five passenger boats and 29,550 barges have used the canal during the same period, while private recreational boats numbered 1425.

There was a total of 785 lockages during September, increasing the total for this year to 6623. At the same time last year there had been 7236 lockages through the month of September.

A total of 38,213 craft of all types passed through the locks this far this year, compared to 39,659 at the same time last year.

School Officials To Study Junior College Program

A county-wide planning meeting of school administrators to discuss a junior college program for Madison county will be held in early November as the result of a decision reached last week in a meeting of 15 Madison county school superintendents.

The group authorized Wilbur R. L. Trimpe, county superintendent of schools, to arrange the planning session and Trimpe said he will try to have Gerald Smith, executive secretary of the Illinois Junior College board, present at the meeting.

Trimpe said the meeting last week was attended by Robert Davis, administrative superintendent of School Superintendents of Madison county, and Johnson of Granite City school district; Wensel Brown, superintendent of the Madison school district; and John Pier, superintendent of the Venice school district.

Under new state legislation, school districts are now permitted to levy an additional tax up to 3 cents to help pay the tuition of any resident of the district at any Junior College he wishes to attend if there is no Junior College in his district.

Trimpe said under a plan to organize a countywide Junior College, the state would pay 75% of the building cost, and operational costs would be financed with a countywide tax rate, eliminating the individual district rates for tuition payments.

The county school superintendent said that he will draft a tentative formula of cost to the school districts based on enrollment and assessed valuation.

A Madison county Junior College would be classified as Title I under the new law and would have its own board and jurisdictional boundary line.

Dr. Walker to Speak At Nurses' Program

Dr. Francis S. Walker will be the guest speaker for the Nurses Continuing Educational Program at St. Elizabeth Hospital on Thursday. The meeting will be held at 7:30 p.m. in the classroom of the Tri-Cor building. Dr. Walker's topic will be "The Diagnosis and Care of Patients with Heart Injuries."

Dr. Walker, whose practice is limited to neurological surgery, is a graduate from the St. Louis University School of Medicine. He is a member of the American College of Surgeons and also of the St. Louis Medical Society.

All professional and licensed practical nurses in the area are invited to attend this program.

inating the individual district rates for tuition payments.

THE COUNTY SCHOOL SUPERINTENDENT SAID THAT HE WILL DRAFT A TENTATIVE FORMULA OF COST TO THE SCHOOL DISTRICTS BASED ON ENROLLMENT AND ASSESSED VALUATION.

County Zoning Board to Force Cleanup of Dumps

A program to clean up landfill dumps in Madison county is being prepared by the Madison County Zoning Administration in cooperation with members of the county board of supervisors, Jack Clifford, zoning administrator, announced Friday.

Clifford said his office plans to move under provisions of a state law that requires landfill operators to cover refuse and garbage nightly with dirt as a means of eliminating odors and rodents and to minimize health standards.

Members of the county board have been reporting to the zoning administrator any such sites in their townships. Clifford said operators of dumps operating in violation of the law will be given time to remedy the situation or face prosecution.

The Chouteau Island landfill was fined \$100 recently on two charges. Clifford said this dump since has remedied its faults and that he felt the same treatment should be applied to all other negligent operators.

Clifford said that a preliminary survey thus far has revealed four dumps in Godfrey, two in Edwardsville township, two in Chouteau township and one in Foster township. According to Clifford, Harry Briggs, supervisor of Nemo township, has indicated he would like the name of one and possibly two, dumps in that township.

Medicare is Topic For Optimist Club

Aspects of the new "Medicare" program and various problems which result from other areas of the Social Security system were discussed here by Bon Delaney Jr., assistant manager of the East St. Louis Social Security office. He was the speaker at the Granite City Optimist luncheon meeting Thursday in the YMCA. Milton Allen was program chairman.

The agency official said more than 15 1/2 million "Medicare" applications currently are being mailed and all Social Security and railroad beneficiaries should receive theirs by December. He explained that husbands and wives should sign separate enrollment cards and added, "each beneficiary will receive his own card and should not use someone else's."

Delaney added that the new program will substantially increase the workload at each district office. He advised those persons desiring further information to write or visit the East St. Louis office, located at 435 Missouri avenue, or call EXpress 7-5530, or BRIDGE 4-2200, Extension 324.

Robert Brave, immediate past club president, was in charge of the business portion of the meeting. He announced a Zone F dinner-dance, slated for Nov. 13, at the Stratford Hotel, Alton, and reminded those planning to attend to make reservations with chapter president Edward L. Stone.

Don Z. Farrington was appointed to arrange a special program in observance of "Optimist Youth Appreciation Week."

In other years, local club members have entertained about 50 high school age youths at a luncheon or dinner.

At this week's meeting, a representative of the Madison county sheriff's office is to be the guest speaker.

X-rays for Men Hurt in Falls

Two local men who underwent x-rays Thursday at St. Elizabeth Hospital were given treatment for possible rib fractures. Both were released.

Injured in separate accidents were Clyde Browning, 66, of 1833 Fifth street, Madison, who also complained of chest and back pains after he fell at his home, and A. Harold Mason, 58, of 1408 Woodward drive, who also complained of pains in his right hip and chest which he said had resulted from injuries sustained in a fall from a truck five days earlier.

Others given treatment Thursday and released, included Wilson Hundley, 17, son of Wilson Hundley, 1011 Third street, Venice, who bruised his right elbow playing basketball, and Thomas Ripple, 15, son of Robert Ripple, 1308 Meridian street, who was spoked in his left leg and injured his right hand.

After consuming about 15 baby aspirin, Bonnie Jo Williams, 2½, daughter of Mr. and Mrs. Orvil Williams, 3408 Kirkpatrick Homes, was given a stomach lavage, and Jerry Respondick, 15, son of Theodore Respondick, 2015 Thirteenth street, was given treatment for cuts on his left arm and hand after he fell on broken glass.

Mary Davinroy, 6, daughter of Mr. and Mrs. Leo Davinroy, 1229 Klein street, Venice, punctured her right foot on a rusty nail, and Mrs. Judy Joyce, 2411 Cardinal avenue, was given treatment for cuts on her right hand.

Hoffman Appeal Denied, To Start Prison Term

The appellate court in Mount Vernon last week upheld the Madison county circuit court in the conviction of Carl W. Hoffman, 27, of 3220 Wayne avenue, who is under a one-to-four year prison sentence for aggravated battery.

He will be given a week to settle his affairs before authorities set a committal date. They are awaiting arrival of legal papers from Mount Vernon.

Hoffman was convicted in the shooting and wounding of a Granite City Army Depot soldier on Sept. 20, 1962, at the former Sherry's Lounge, 16th street and Madison avenue. He has remained at liberty most of the time since then.

The sentence was set Jan. 27, 1964, by Circuit Judge Joseph J. Barr, who denied probation. The conviction then was appealed.

UF Drive

used an increase, and pledges by construction workers and labor unions are expected to be higher this year.

In urging the cooperation of the entire community in successfully completing the campaign by Oct. 22, Hundley praised the work of the advance crews in securing 25½ of the \$348,000 before the drive kick-off.

"We've got 250 volunteer workers, and each person must accept responsibility if we are going to top the goal."

Dutch-Treat Dinner

The dutch-treat kick-off dinner was held on the fifth floor of the steel firm's main office building and was preceded by a reception.

Seated at the head table for the banquet were Mr. and Mrs. Hundley; Carl Mathias, vice-chairman of the campaign, and

Stranded on Roof By Ladder Thief

A former Granite Cityan who operates a store in Wood River was caught in a predicament one evening last week when he scaled a 20-foot ladder to get to the roof of the store to check clogged drains.

A husky thief swiped the ladder. Jerry Trattler, son of the founder of Trattler's store here, and operator of Trattler's store there, called for help to a pedestrian, but no ladder of suitable length could be found.

Finally, two policemen happened along. One who knew Trattler chuckled: "Now the Cat burglar has been caught," but then the officers summoned the city fire department to rescue the trapped merchant.

Rail Crossing Mishap Leads to \$35,000 Suit

A \$35,000 suit has been filed for Marie Campbell against the A & S Railroad in county circuit court as the result of an accident Oct. 5, 1963, on the Bend road rail crossing.

The complaint alleges she drove her auto into a rail car at the crossing that night, and that the train could not be seen because headlights were visible under the cars and gave a false illusion that the crossing was clear. Negligence was charged in that there were no fuses, lanterns or lights provided.

A correction in the number of burglaries and thefts in Granite City during June, July and August was called to the attention of the Press-Record Friday by Police Chief Willard.

MRS. RICHARD LEE HILLMER, a bride of Saturday evening. Her wedding took place at First United Presbyterian Church. A daughter of Mr. and Mrs. Louis Lee, 2621 Logan avenue, the bride is the former Clara Myers.

Hillmer-Myers Nuptials At 1st Presbyterian Church

First United Presbyterian Church was the scene of the wedding Saturday evening of Miss Clara Myers, a daughter of Mr. and Mrs. Louis Lee, 2621 Logan avenue, and Mrs. Nettie Hillmer, 3000 Idaho street.

Rev. Dr. David B. Maxton officiated at the 7:30 ceremony. The bride was given in marriage by her father. She wore a gown of Chantilly lace styled with a fitted bodice, cap sleeves and a square neckline. Her veil of illusion was held in place with a beaded satin crown and she carried a cascade bouquet of spider "mums" surrounding a corsage of white chrysanthemums.

The attendants were Miss Pat Alford, maid of honor, and Miss Verna Alford, bridesmaid. The bride's bouquet was in coral with a bouquet of green spider

"mums, while the bridesmaid chose turquoise with a bouquet of yellow flowers. Both wore headpieces to match their gowns. For her daughter's wedding, Mrs. Hillmer appeared in a beige brocade jacket dress with a corsage of green chrysanthemums and pink orchids for contrast.

John Call and Darrell Hillmer, the latter a brother of the bridegroom, served as best man and groomsmen, respectively. John Hillmer, another brother, and Steve Segedy were ushers. A reception was held after the ceremony in the apartment the couple will occupy at 2017 a Missouri avenue.

Both young people attended local schools and the bridegroom is employed by Laclede Steel Co. in Alton.

A presentation by a choral group under the direction of Mrs. Junetta White will be given at the Nov. 4 meeting.

Open House at City Hall Tonight, Partney Announces

The second session of open house at the city hall will be held at 8 o'clock this evening in the city council room on the third floor.

Mayor Partney is again extending an invitation to any Granite City with a problem involving the city to visit the city hall this evening to talk to him, the aldermen or other city officials.

At the session last month, over 20 persons appeared to talk to the mayor, aldermen and department heads concerning problems of traffic controls at schools, neighbors' chickens, drainage and rats and trash.

The open house sessions are conducted on an individual basis, with each person registering his name upon entering the room. When the person's turn comes, he goes to a separate table to talk to either the mayor or the aldermen.

The conversations are private, and the mayor refers any problem to the proper department head.

Mayor Partney said the sessions are held at 8 o'clock on the second Monday of each month because that is the only Monday night the council does not meet in regular session. It also is a night the stores have evening hours and there are more people in the downtown area.

The sessions initially were called "beet" or "grape" sessions, but now the preferred name is "open house."

Permits to build a new brick residence costing \$18,000 and a concrete block building at a cost of \$10,000 were among five building permits issued by the city of Madison during September, according to a report of Commissioner E. J. Miller. Value of all building authorized in the five permits amounted to \$32,800.

The permit for the construction of the new brick veneer residence was issued to Robert McBride, 1218 Alton avenue. The permit for the block building, which is to house several apartments, was issued to John Haynes of West Madison.

Other permits included: Stephen Dudak, 1704 Sixth street, installation of steel siding at a cost of \$1000; Arvid Smith, 2006 McCasland avenue, for a two-room, frame addition at a cost of \$1500; and C. L. Manaway, 2002 McCasland avenue, for remodeling four rooms at a cost of \$2000.

GC Traffic Fatality Rate More Than Double Last Year's

Granite City's traffic fatality rate in the first nine months of this year is more than double last year's, it was noted after the September statistics were compiled by police.

In the nine-month period this year, seven persons died in traffic accidents as the result of traffic crashes. Among the tragedies was the triple death of three teenagers whose auto was struck by a train at the 20th street crossing.

In that accident, the crossing gates were down and warning lights were flashing.

The three traffic deaths last month represented the largest number for any one month in recent years.

This year's seven traffic deaths also includes one each in the months of January, February, May and July.

September Statistics
The September statistics show

124 crashes with the three deaths and 48 personal injuries. During the month the police department made 101 arrests for moving traffic violations.

September showed marked increases over the August totals of 103 accidents with no fatalities and 35 injuries.

The nine-month totals for Granite City list 1103 accidents, or four a day, with 370 injuries and the seven fatalities. In the same period of 1964 the totals

were 1112 accidents with 357 injuries and two deaths.

A decade ago in 1955, the nine-month accident totals for the city were 688 accidents with 137 injuries and two deaths. Five years ago the comparable statistics were 776 accidents with 241 injuries and no deaths.

A breakdown of this year's totals by months, listing the number of crashes, injuries and deaths in that order, follows:

January—160, 42 and one; February—128, 43 and one; March—158, 52 and none; April—108, 33 and none; May—117, 48 and one; June—110, 32 and none; July—97, 37 and one; August—103, 35 and none; and September—124, 48 and three.

County Schools Get \$243,523 from State

Madison county school districts are receiving \$243,523 in special education claims, Ray Page, state superintendent of public instruction reported today.

He certified a total of \$12,704,810 in such claims from 826 Illinois school districts, with Cook county receiving \$7,610,910.

Page said 3560 teachers provided special education for more than 150,000 handicapped children during the 1964-65 school year, an increase of 550 teachers. He said about 4000 teachers will provide services for more than 165,000 children during the current school year.

Park District's 5 Recreation Programs Start This Week

Hundreds of local youngsters are expected to register today and tomorrow in five recreation programs, sponsored by the Granite City park district. Fall activities which get under way this week, include square dancing, roller skating, gymnastics and tumbling, girls' modified field hockey and baton twirling.

The eighth annual square dance program for students in the fourth, fifth and sixth grades will begin tonight at Nameoki school. Other sessions will be conducted at McKinley school tomorrow; Wilson school Wednesday; and Niedringhaus school Thursday.

Each session will be held from 6:30 to 8 p.m. Pupils from other public and parochial grade schools may attend the class nearest their home. Qualified teachers will instruct each program under the supervision of Mrs. Helen Bjorkman.

The first of two weekly baton twirling classes will be held from 4:30 p.m. today, at the Marilyn Champion School of Batom, Niedringhaus avenue at Iowa street.

A second session is slated to begin at the same hour on Wednesday. Classes will be limited to 25 students each and participants must be new to twirling and qualify as beginner pupils.

Gymnastics, Tumbling
Also tonight, the gymnastics and tumbling program will start at the park district's community center, 822 Niedringhaus avenue. Intermediate students can attend classes from 6 to 7 p.m. each Monday and Thursday, and the advanced group will meet on the same evenings from 7 to 8:30 p.m.

This year, two beginner classes will be held from 4 to 5 p.m. each Tuesday and Wednesday and can accommodate about 50 youngsters in each session. Pete Robinson, gymnastics instructor, said. He added that the program is open to all grade and high school students.

For the second year, the park district will include a girls' modified field hockey program in its fall and winter schedule. Exclusively for girls in the fifth and sixth grades, the initial instruction session will start tomorrow after regular school hours at the Frohardt school grounds.

Identical programs will be conducted each Thursday at Wilson school and on Fridays at Niedringhaus school. All three ses-

sions will be for one hour. Interested students who attend other grade schools may participate in the program closest to their homes.

Roller Skating
Under the direction of Kenny Hubert of the park recreational staff, youngsters in grades three through nine can enjoy free roller skating sessions at Stoppok's Roller Rink, 119th street and Cleveland blvd., starting tomorrow and continuing each Tuesday during the winter months.

No admission charge will be made, Hubert said, but children needing to rent skates must pay a 25-cent rental fee at the rink.

All park district-sponsored recreational programs are available to residents free of cost, Supt. Harold Brown said. However, he reminds parents that each child is required to pay a \$1 insurance fee, which will remain in effect until June 1, 1966. Once the insurance is purchased for any park program, Brown explained, the child is covered in subsequent programs until next June.

IVC Office to Close
On Columbus Day
The office of the Illinois Veterans Commission will be closed Tuesday in observance of Columbus Day, Joseph Wetton, local officer, announced today.

Wetton said that the office on the second floor of the city hall on Wednesday will reopen for regular hours from 8:30 a.m. to 4:30 p.m.

NITE-LITE means peace of mind

It's a good feeling, knowing there's a Nite-Lite guarding your property all night... every night. Prowlers and other unwelcome visitors steer clear of a well-lighted farm yard.

Nite-Lite is convenient, too. There's always plenty of powerful light for after-dark chores outdoors.

Nite-Lite protection works automatically... switches on at dusk, off at dawn.

You never even have to think about it. One low monthly rental covers everything; installation, maintenance and all the electricity the light uses. Nite-Lite is not charged on your electric meter.

JAYCEETTES FIFTH IN STATE HAT CONTEST
Jayceettes of Granite City attended a luncheon at Fischer's restaurant, Bellevue, Saturday afternoon. The meeting was held in conjunction with Jaycees' state board meeting held over the weekend, with a dinner Saturday at Augustine's.
There were 288 Jayceette chapters represented at the dinner, with 26 entries in the hat contest. The local group took fifth place, a cash prize and a cookbook written by Mrs. Jeannette Elliott. She displayed a number of her own creations with a short comment about each. Mrs. Elliott, with three judges from Bellevue, made final selections on the hats.
Each guest received miniature pin cushion hats with other gifts in colored saks. A tour then was made by bus to the Our Lady of Snows Shrine.

Attending from here were Mesdames Sally Herber, Betty Lake, president of the local chapter, and Liz Day, Diane Warnhoff and Phyllis Crews and Miss Mary Ann Mackey of St. Louis, a guest.

Secretaries Study Fires
"There's no place like home... for fires," Assistant Granite City Fire Chief Curtis Donley said at a meeting of the Tri-City Chapter, National Secretaries Association, Thursday at the Ruse Bowl restaurant. He said 75% of today's fires occur in the home.
Fireman Charles Farrell demonstrated the hazards of such items as hair spray, disinfectant and other spray cans when used around heat.
Another common cause of house fires is using flammable, too large and overloading wires, he was noted. Even a simple act like moving clothes around in a closet can be dangerous when conditions are "right," such as dry stasis air, the chapter was noted.

Slides were shown on what to do if a fire should occur and on recent local fires.
"How many parents have taken the time to explain to their children how to best escape from their room if a fire should break out in the house — where the child spends most of his time. The child does the first thing he can think of — hide under the bed — and many times after a fatal fire this is just where the victim is found," Donley said.

President Charles Vumovic presided at the meeting, attended by 18 members and four guests—Mrs. Marilyn Ward of the county auditor's office, Helen McDonald, Pat Sparks of A. O. Smith Co. and Velma Zang of the city hall.

Co-chairmen, Mrs. Lucil Butz and Mrs. Twila Edmond, gave a final report on "Boss Night" Oct. 14 at the Elks club. Charles Whitehead, chairman of the board of General Steel Industries, will present the 1965-66 Book of the Year Award to a recipient chosen by secret ballot.

A prior ruling that only NSA members could attend is being changed to include attendance by those who submit applications will be initiated at the November meeting, if approved.

Mrs. Edmonds reminded the members of the chapter's Membership Chairman Mary Sedekum announced that at least four secretaries are interested in joining. Those who submit applications will be initiated at the November meeting, if approved.

Full SIU Bus Schedule To Continue This Week

All 10 daily round trip buses for students from Alton and East St. Louis-Quad-Cities to the Western campus of Southern Illinois University will be continued, at least through Friday.

When classes began at SIU-SW on Sept. 23, it was announced that five of the daily trips from each point of origin would be on a two-week trial basis through Oct. 6 and would be discontinued unless enough students used them.

Although students have not taken advantage of the service as SIU officials hoped they would in order to relieve traffic congestion on campus, SIU-SW Transit System has agreed to extend the trial runs through this week to see if increased usage will make the service feasible.

As it now stands, buses leave Alton and East St. Louis for the campus each week day at 6:35, 7:35, 8:35 and 11 a.m. and 1, 3, 4, 5, 6:55 and 9:40 p.m.

Miniature Poodle Entered in Show

"Captain Silver Buttons," a miniature silver poodle owned by Mrs. Ethel Upton, 4257 East Lake drive, is entered in the AKC-sponsored obedience trials to be held Sunday at Peoria, Ill. He recently captured four trophies and two ribbons at the Weidman Springs, Mo., annual dog show.

Top scores in obedience training is highly-desirable in the overall background of a champion dog show, Mrs. Upton reports. In his second showing at Weidman Springs, the 14-month-old male dog was judged a blue ribbon winner in the Novice A group and scored 188 points, out of a possible 200, to take the highest scoring total in the St. Louis Dog Breeder's Association show.

Mrs. Upton, who personally handles, trains and shows her miniature champion, said the animal scored 180 points at his initial showing in Columbia, Mo., last month.
